TRAC DESCALER CLEANS WATER COOLED SYSTEMS FAST
Unique formula is non-toxic, biodegradable, non-corrosive

FORT LAUDERDALE, FL (USA) – Mineral deposits (water scale) that restrict water flow and cause onboard cooling systems to fail can be removed quickly and safely with Descaler from TRAC Ecological Marine Products.

Designed specifically for fresh and brackish water applications, TRAC Descaler can safely be used within engines, cooling towers, boilers, or just about any other systems recirculating water. Descaler will not harm gaskets, seals, plastics or any metals commonly found in water systems.

Available ready-to-use in (US) one gallon bottles, five gallon pails and 55 gallon drums.

Priced from \$US23 per US gallon at leading marine retailers or buy online at www.trac-online.com with free shipping in the continental US.

Note to editors: A high resolution image of TRAC Ecological's Descaler for publication can be downloaded at:
