TRAC ECOLOGICAL LAUNCHES TRAC EUROPE
Netherlands Facility Will Improve Service
To European Distributors, Boatyards
METS 2006 - Stand 7.574

AMSTERDAM, NETHERLANDS, NOVEMBER 14, 2006 - At the opening of METS 2006 today in Amsterdam, TRAC Ecological Products of Ft. Lauderdale, Florida (USA), manufacturer of environment-friendly products to clean marine water systems, announced that it has launched TRAC Ecological Europe located in the Netherlands.

"TRAC Ecological Europe will maintain a complete inventory of TRAC products that dissolve scale, barnacles, zebra mussels, calcium, rust, lime and other mineral deposits that can reduce water flow," said TRAC Ecological CEO Kevin Greene. "Our new facility will allow us to efficiently support European distributors, boatyards and boatbuilders," he added.

TRAC Ecological Europe will be headed by Mark Traas of International Yacht Services, with offices and a distribution facility located in Noordwijk.

For more information about TRAC Ecological Europe, visit Stand 7.574 at METS 2006, call +31 71 3649218 or email info@iys-online.com. For information on the TRAC product line, visit www.trac-online.com.
