

Designed for applications ranging from 25 to 250 Gallons

mid to large sized air conditioning & refrigeration plants ~ main & auxiliary engines 500hp & up  
 small to medium size black water systems ~ heat exchangers  
 piping systems to 14" diameter

**Trac Ecological's advanced descaling systems provide an environmental answer to internal, in-place cleaning, of all your vital onboard equipment!**

Originally designed 15 years ago, the **Pro-Flush (XL)®** was TRAC's only answer when it came to flushing needs. Today the **Pro-Flush (XL)®** is joined by a line of flushing equipment and effectively bridges the gap between the **Port-O-Flush®** and the **Pro-Flush Mobil®** combining the best of both worlds.

Built on a rugged, lightweight platform with 8" pneumatic tires, the **Pro-Flush (XL)®** is both portable and highly maneuverable. But don't let it's size fool you, the **Pro-Flush (XL)®** can handle big jobs! With a built in filter and pressure regulator, versatility is standard on all **Pro-Flush (XL)®** units. Available with the same centrifugal pump configuration employed on the **Pro-Flush Mobil®**, the **Pro-Flush XL®** only sacrifices tank size making it perfect for applications where trailer access is impossible.

**The Pro-Flush (XL) is perfect for:**

- Engines
- Boilers
- Black water systems
- Generators
- HVAC systems
- Piping systems
- Gray water systems
- Heat exchangers
- On-site service
- In-house service
- Refinery service
- Ship-board service

**Specifications:**

- Anti-corrosive platform with 8" pneumatic tires.
- Open head nylon tank with gallon readings.
- Available in 110/20VAC 50/60 cycle.
- Pressure-Flow control system.

Dimensions

- Length ▶ 44.59"
- Width ▶ 24.25"
- Height ▶ 55.12"

**Comparison Chart**

	<b>Pro-Flush®</b>	<b>Pro-Flush XL®</b>
<b>tank</b>	35 gallons	55 gallons
<b>pump</b>	10.3gpm @ 60psi	20gpm @ 55psi
<b>piping</b>	1" Sch. 80pvc	1.25" Sch. 80pvc
<b>filter</b>	15 gpm	25 gpm
<b>pressure range</b>	5-55 psi	5-55 psi
<b>application range</b>	25-150 gallon	25-250 gallon

**Optional Equipment:**

- 1" Ultra-force hose, fitted with 1"npt threaded connections.
- Safety cut-off flow-switch plumbed into return line.
- Product immersion heater kit.
- Sch. 40 PVC construction.
- In-line Digital PH meter.
- Flange & fitting field kit.

**The Pro-Flush® has been designed for use with any of TRAC's environmentally friendly products. Careful attention has been given to ensure safety of both you and your equipment.**
