

Yacht-Flush

Designed for applications ranging from 10 to 40 Gallons

small to medium air conditioning & refrigeration plants ~ main & auxiliary engines up to 1800 horsepower
 small to medium size black water systems ~ heat exchangers up to 40 gallons
 piping systems to 3" diameter

Trac Ecological's advanced descaling systems provide an environmental answer to internal, in-place cleaning, of all your vital onboard equipment!

We designed the **Yacht-Flush®** to be a compact yet powerful tool built right into a rugged fifteen gallon tank! Combining two of our most successful flushing units in one, the **Yacht-Flush®** has been specifically designed with large yachts in mind. The **Yacht-Flush®** can handle large cleaning applications all while remaining small and compact enough for easy onboard storage.

Yacht-Flush® provides portability and versatility while still efficiently handling small to medium size engines, heat exchangers, air conditioning & refrigeration systems. Use the **Yacht-Flush®** with any of our safe, non-toxic & biodegradable descalers for unparalleled cleaning results. This unit will save time and money by providing a welcomed alternative to mechanical cleaning. The **Yacht-Flush®** will allow you to clean a system in-place and have it back in service in half the time!

TRAC's Yacht-Flush® is an essential tool to anyone responsible for water system maintenance!

Specifications:

- Anti-corrosive 1" centrifugal RULE pump, 110V, 46.6GPM @ 25PSI.
- All plumbing fitted in high strength schedule 80 PVC.
- Pump designed for easy removal for maintenance.
- 15 G. open head tank made of recycled plastic.
- Isolation valves to allow for easy maintenance.
