

Trac Ecological's advanced descaling systems provide an environmental answer to internal, in-place cleaning, of all your vital onboard equipment!

Port-O-Flush Jr.™ is the smallest flushing unit available on the market today. A powerful tool packaged into a five-gallon container, **Port-O-Flush Jr.™**, provides portability and versatility while still efficiently handling small to medium size engines, heat exchangers, air conditioning & refrigeration systems.

Designed with the do-it-yourself boat owner in mind, the **Port-O-Flush Jr.™** is extremely simple to use. Tasks which normally would have led to days of down time can now be confidently preformed within an afternoon.

TRAC's **Port-O-Flush Jr.™** can be easily stowed onboard, providing added insurance for emergency engine overheating conditions!

Every **Port-O-Flush Jr.™** comes complete with all the hoses and fittings you'll need to perform applications on most engines & equipment commonly found on today's small to medium sized vessels.

Specifications:

- High density polyethylene five-gallon container with lid
- Anti-corrosive, epoxy encapsulate, centrifuge submersible pump
- Tough schedule 80 PVC fittings
- Supply & discharge isolation valves
- (2) 10' 5/8" nylon reinforced hose with fittings
- (2) 1/2" male NPT nylon adaptors
- (2) 3/4" male NPT nylon adaptors

SERIES 2		SPLCS
max. flow	gpm lpm	5 18.5
max. head	ft. m	13 2.7
inlet		3/8" PPT and 3/4" MPT
outlet		1/4" MPT
hp		1/35
kw		.021
rpm	us metric	3200 2725
volts	us metric	115 230
ph		1
hz		50/60
watts	us metric	54 55
amp	us metric	1.0 .56
motor type		SUB blue
electrical connection		6 ft. (3.6M) SJT
max. int. pressure	psi bar	50 3.4
max. liquid temp.	°f °c	130 54
weight packed	lbs. kg.	5 2.3
materials in contact with solution		Epoxy, Polypropylene, Generic, Mar- SJT cord, Stainless Steel

Why YOU need a Port-O-Flush Jr.™?

- **Engine overheating:** Over time, both fresh & salt water cooled engines will develop scale and marine growth build up. Eventually this will cause the engine to overheat. Flushing with the **Port-O-Flush Jr.™** will ELIMINATE ALL SCALE AND MARINE GROWTH!
- **Air conditioning not cooling:** When scale builds up inside A/C condenser coils, heat transfer is significantly reduced. This will cause your A/C to work a lot harder to cool your boat. Flushing with a **Port-O-Flush Jr.™** will make sure your air conditioning maintains its efficiency!
- **Pipes Clogged:** having a **Port-O-Flush Jr.™** on hand means you never have to worry about clogged pipes again. Anything from black water lines to fresh water systems, **Port-O-Flush Jr.™** is always ready for the task.

The **Port-O-Flush Jr.™** has been designed for use with any of TRAC's environmentally friendly products. Careful attention has been given to ensure safety of both you and your equipment.
